Dear Sir/Madam

JUSTIFICATION FOR SCHOLARSHIP

I am submitting this application for a scholarship to further my education in Computer Science. I am a level hundred (100) student and I require financial assistance to complete my degree in Computer Science. I wish to work in the field of software development. However, I need a degree to advance in this field.

I lost my father in the year 2008 and my uncle (Dr. CHARLES IBRAHIM MAHAMA) took up the responsibility of funding me education because my mother is jobless. My uncle is a retired public servant. His only source of income is his monthly pension which is about GH¢ 2,100.00. His monthly expenditure on essentials of life such as food, medical and utilities bills consume almost all of his pension. If I am fortunate enough to receive this scholarship, I will finish my degree to qualify for a job in a company that promotes individuals with knowledge in software development.

I hope for your kind consideration of my request for a scholarship.

Thank you.

Yours faithfully,

.....

Fatawu Yakubu
