Respected Sir,

LETTER OF INTENT FOR SCHOLARSHIP

I, Alhassan Osman am writing to apply for the full scholarship in your university to pursue Bachelor of science BSc (Business Administration) as an undergraduate student for the batch starting 23rd January, 2023. I was selected to join the course at your university and writing this letter to show my interest on applying for the scholarship for this course.

This scholarship award will help push me to further towards my business degree and my dreams to one day having a successful career as administrator. I also believe in giving back to my community by contributing in planning and management skills, and helping them in decision making in order to help develop the image of my community.

Five years from now, I see myself employed at large local firm, managing and administrating it affairs. I feel blessed that I am giving the opportunity to be awarded a scholarship to help fulfill my dream and I will prove that I have what it takes not to only be a successful student, but an outstanding manager. I have enclosed my scholarship essay on human impact on the environment.

I look forward to get a positive response soon.

Sincerely,

ALHASSAN OSMAN
