ACCRA, GHANA.

WHY I NEED THE SCHOLARSHIP FROM THIS PRESTIGIOUS INSTITUTION

As an individual who studies civil engineering, I understand the necessity of having a strong education to help me reach my objectives and become a prosperous specialist. With this in consideration, I am hoping to pursue a degree in civil engineering and a scholarship can help me accomplish that.

A scholarship would provide me with the necessary financial assistance to pursue the degree without the stress of needing to worry about paying for tuition and other costs. It would also give me the chance to take up internships and other activities related to the course, which would be advantageous to my future profession.

Moreover, a scholarship would help me to concentrate on my studies without the distraction of needing to work part-time to support myself. This would enable me to dedicate my full attention to my studies, which would be advantageous in the long run.

Thus, having a scholarship would give me with the required financial aid and autonomy to pursue my studies and focus on my engineering degree. It would help me to gain the necessary knowledge and abilities to become a successful professional.

Thank you.

Yours Faithfully,

.....
