

### **THE REASON WHY I DESERVE THE SCHOLARSHIP**

I am the person of, Abdulai Faisal. I am 22 years old. I from a family of six (6) sisters, am the male among them, two of them are my elder sisters none of them have any educational background, neither have them acquired any skills work.

I decided to take my education seriously so that, I can further my education to be cone a teacher and also re-open my father's business.

My father was a successful butcher in a town call Sekyedumase, so my father decided to do whatever he can do in his power for me to further my university. By the will of God my father's business collapsed then he came to Accra to do "Okada" popularly known as "Aboboya" he got accident through that life was not easy for my family so I also came to Accra to take care of his injuries after a couple of months then reality started between me and my family.

Therefore, I will be grateful, willing to accept and honor any oppportunity I will be granted to further my education, that is going to be a miracle for me and only God know. How happy and thankful I will be I am bound to live as expected and try my possible best to achieve my goal and make my family proud, this is going to be "grass to grace" for me and I promise that I will live up to expectation.

I will end my recommendation letter from S.H.S at the bottom. Thank you.
